

# MOBEYE APPLICATION SHEET

Applications in security and alarming

## MOBEYE all-in-one GSM alarm system

### Keep both intruders and the cold out

For the days when your home is unoccupied, the Mobeye i110 gives extra reassurance. With the combination of a burglar alarm and temperature alarm, you can be sure your belongings are safe. No intruder and no frost will remain unnoticed.

*Security made easy!*

### Mobeye i110

#### **Mobeye i110- all-in-one GSM alarm system**

fully battery powered alarm system with integrated motion sensor, temperature sensor and GSM dialler. Alarms to (max. 2) preset numbers.

### How it works

- Provide a SIM card (prepaid or affordable subscription)
- Insert the SIM card and batteries into the Mobeye i110.
- Program at least one telephone number as alarm number using the keypad..
- Arm the intruder alarm using your code. If anybody is entering the room afterwards without disarming on time, an alarm notification is sent. The user has the choice between a silent or loud alarm on the spot.
- In order to receive a temperature alarm program the desired temperature limits.
